

USGBC NJ - The Official Provider Licensed by USGBC

Presents

LEED 201: v4 Core Concepts & Strategies & LEED Green Associate Exam Preparation

AVAILABLE IN-PERSON OR VIA WEBINAR

OPEN TO QUALIFYING GRANTEES:

Employees of NJ businesses may qualify to take this course fully-funded. Interested companies should contact Florence Block, USGBC NJ Executive Director at (973) 290-0013 or executivedirector@usgbcnj.org.

Instructor: Jason Kliwinski AIA, LEED AP BD&C, O&M, LEED Fellow & Faculty, Partner, Green Building Center NY/NJ

Description:

Gain essential knowledge of sustainable building concepts fundamental to all LEED rating systems. Learn LEED intents and concepts at the credit category level and basics of the LEED certification process. This course provides a foundation for pursuing the LEED Green Associate exam. This course will include LEED v4 updates.

Learning Objectives

- Identify the key components of the LEED Rating System.
- Discuss the basic LEED Certification process.
- Describe the intents and associated concepts of each LEED credit category.
- Explain regulations, recognitions and incentives related to each credit category.
- Recognize successful LEED strategies and measurements for achieving credit category goals
- Gain understanding of what is needed to pursue the LEED Green Associate exam

Credential Maintenance Units:

BOMI CPDs: 7

CoreNet CPDs: 7

AIA/CES LUs for Health, Safety, and Welfare (HSW) and Sustainable Design (SD): 7
